CLASSIFIED ADS

Classified ads over 444 characters are not accepted. (Do not count spaces.)

We arbitrarily capitalize the first few words of all classified ads to introduce the content. The addition of any graphics, borders, special word placement, or centred text turns your classified ad into a *display ad* of at least the "A" size shown in the side panel.

For publication on Wednesday, classifieds must be submitted no later than Monday, manually by 4 pm or online by 10 pm.

To submit a classified online, or to view an edition of *The Birds Eye* online, visit our website at www.thebirdseye.ca.

Email us at editor@thebirdseye.ca

Classifieds cost 1 - 222 characters: \$7.62 + GST = \$8
223 - 444 characters: \$14.29 + GST = \$15

DISPLAY ADS

It is an advertiser's responsibility to provide a display ad that's ready to print in either PDF, .doc, .jpg, .gif, .tif, or .png format.

Creating your display ad from scratch? Use standard Bird's Eye widths, **2.4 inches, 3.7 inches, 5 inches, or 7.6 inches**. The ad's height is up to you.

But if you already have an ad graphic that doesn't conform to these exact widths, we can usually work around it.

Please remember that a display ad should be easy to read. Placing too many words in too small a space results in tiny

fonts that could upset readers rather than win their interest.

Display ads requested later than noon on Fridays for the next edition are only possible at the editor's discretion.

If your ad runs in two consecutive issues (a single-edition gap still counts as consecutive), then the second and all such recurring ads are discounted 10%.

Display ad prices are rounded to the nearest dollar. Consecutive discounts and GST, not displayed here, are not rounded.

Area cost	square inches	1-5	6-10	11-25	26-60	61-78
	cost per sq. in.	4.75	3.75	3.25	2.75	2.25

At a glance	biz card	1/6 page	1/4 page	1/3 page	1/2 page	full page	double page
Before consecutive discount*	\$21	\$42	\$61	\$78	104	\$175	\$325

*Consecutive or with a one-edition gap receives a 10% discount

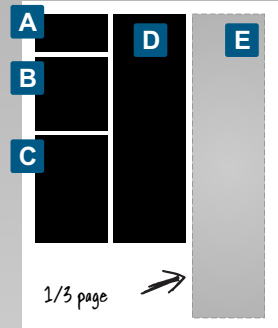

single column

2.4 inch width*

Multiply 2.4 inches by any height.

Examples

A = 3 sq. inches	\$14
B = 6 sq. inches	22
C = 8.6 sq. inches	32
D = 18.2 sq. inches	59
E = 24 sq. inches	78

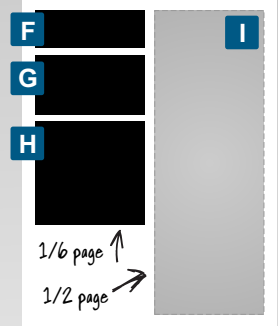

1½ columns

3.7 inch width*

Multiply 3.7 inches by any height.

Examples

F = 4.6 sq. inches	\$22
G = 7.4 sq. inches	28
H = 13.0 sq. inches	42
I = 36.4 sq. inches	100

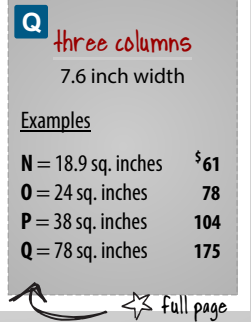

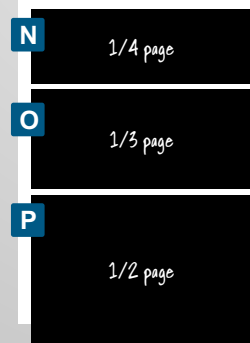

two columns

5 inch width*

Multiply 5 inches by any height.

Examples

J = 6.3 sq. inches	\$24
K = 12.3 sq. inches	40
L = 17.8 sq. inches	58
M = 50 sq. inches	137

*Standard column widths include gutters.
